#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. Claims 1-20 are pending in the application.

#### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In independent claims 1, 10, 15 and 20, the values of variables R3, R4 and R6-R27 defined as ----heteroaryl and C5-C7cycloheteroalkyl----- are indefinite since the size of the ring for heteroaryl group, number and types of heteroatoms present in ring are not defined. Also, the term ----stereoisomers ----- is indefinite since it is not clear which stereoisomer is being referred here since there is not even a single example present in the specification. The applicants are suggested to delete this term.

#### ***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-7 and 15-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Forbes (J. Med. Chem., cited on applicants form 1449 ).

Art Unit: 1625

Forbes discloses synthesis and evaluation of a series of pyrazolopyridines with potential anxiolytic activity. The closely related compound, 5d ( see table V on page 2644 ) differs from the instant compounds in having H ( variable R) instead of a phenyl group ( variable R4 in the instant compounds ). However, Forbes teaches this interchangeability for variable R since compound 5a does have a phenyl group. Therefore, one skilled in the art would have been motivated to prepare the instant compounds having phenyl group for variable R by modifying compound 5d disclosed by Forbes without affecting their utility of anxiolytic activity. Also, the instant claim 20 directed to a process for preparing compounds of formula (I) would have been obvious to one skilled in the art from the teachings in scheme I on page 2640 disclosed by Forbes for preparing compound 5 from compound 3 via intermediate 4.
